

## OSTEOPATHY BILL PASSED SENATE

Vote in Its Favor in Upper  
House Stood Seven-  
teen to Seven.

## SURE TO BECOME LAW

Final Hearing of Primary Bill  
Before Committee is in  
Progress Today.

## BADGER EDITORS IN SESSION

Madison, Feb. 26.—The bill legalizing the practice of osteopathy in Wisconsin and providing for a state board of medical examiners passed the senate today by a vote of sixteen to seven. More opposition is expected in the assembly but it will probably become a law.

There were several petitions in the senate for the passage of the primary election law. The senate referred most of its important bills to the committee. The Lenroot bill authorizing city councils to change franchises was laid over until Thursday.

The state press association met here today in the convention hall of the capitol building and will be in session for two days. Tomorrow evening a reception will be given the members of the association at the executive mansion by Governor and Mrs. LaFollette.

## PLANS FOR PRIMARY BILL

Arguments Before the Convention Being Concluded Today.

Madison, Wis., Feb. 26.—If the present plans of the committee on privileges and elections of the assembly do not fail, the primary election bill, substantially its present form will probably be reported to the assembly before the week is out. The final arguments before the joint senate and assembly committees are being held today. This afternoon Henry Fink and C. C. Rogers will speak against the measure, and tonight H. W. Chynoweth of Madison will close the arguments for the bill. The committees will then separate and take up the consideration of the bill.

The assembly committee on privileges and elections is made up of strong sympathizers of the governor, and will of course report favorably on the bill. The report will be unanimous with the

possible exception of Mr. Karel, the democratic member of the committee. There have also been some provisions that relate to the re-drafted. If the plans of Mr. Steiger are carried out, the bill will then be reported in the assembly Wednesday morning. That would bring it on the calendar for Thursday and the plan of the committee chairman is to get the vote before the end of the present week.

It is believed that the bill will pass the lower house but margin it is now said will be small. The bill has lost much strength during the last two weeks, especially in the lower house, and some of its opponents are even sanguine enough to admit that the bill cannot even pass the assembly.

**Pass Life Insurance Tax Bill**  
Madison, Wis., Feb. 26.—The assembly for more than an hour last night engaged in an animated debate over Assemblyman Lenroot's joint resolution to raise the debt limit of cities that desire to acquire municipal utilities from 5 to 10 per cent., and finally decided to kill the measure.

The senate passed the new life insurance tax bill with a slight amendment, and later the assembly concurred in the amendment. The bill was signed by the governor today and became a law.

**Congressional Record's Circulation.**  
The circulation of the Congressional Record has now reached the 26,000 mark. This includes numbers delivered gratuitously to members and senators and newspapers and those sent to regular subscribers, of whom there is a small but select list.

## ROCKHILL TAKES CHARGE IN CHINA

Mr. Conger Will Come Home on a  
Vacation—Chinese Trouble is  
Practically Ended.

Peking, Feb. 26.—This morning Mr. Conger turned over the affairs of the United States legation to Mr. W. W. Rockhill, particularly the conduct of the negotiations with the Chinese plenipotentiaries, and he will shortly return to the United States for a six months' vacation.

Americans here feel that this arrangement is a confirmation of the report that everything is practically settled, for Mr. Conger felt it his duty to finish the negotiations satisfactorily. The Pei Ho river will open next week and then the exodus of diplomats, correspondents and others will begin.

Li Hung Chang says that he expects that the imperial court will return to Peking as soon as notification is given that the troops of the allies are evacuating the capital. He also asserts that no further difficulty in the negotiations is possible.

## TERRE HAUTE MOB HANG AND BURN NERO WHO KILLED A WHITE GIRL

The Brute Met a School Teacher on a Lonely Road  
and Assaulted Her—The Prompt Ven-  
geance of a Mob.

Terre Haute, Ind., Feb. 26.—Miss Ida Finkelstein, a school teacher, died in a hospital here last night at 11 o'clock from wounds inflicted by a negro who shot, robbed and assaulted her and cut her throat this afternoon.

The young woman was walking homeward from her country school over a lonely road to the main highway to take a trolley car to the city when she fell a victim to her murderous assailant.

The negro had a shotgun and a game bag and had been hunting when he called to her to stop. Instead she ran, and he fired at her some of the shot striking her in the hair of her head.

She stopped, and when the negro came up to her Miss Finkelstein handed him her purse containing \$3 and started to go on. He grabbed hold of her. She struggled to prevent an assault and he cut her throat. After he had left her she walked half a mile to a house. She gave a complete description of the tall copper-colored negro, and the interurban line conductor described the man as one of his passengers into the city at 6 o'clock. The police and a posse and a man with a bloodhound are searching the woods in the vicinity of the place where the crime was committed.

Miss Finkelstein was assisted to the city and taken to the hospital where she received the best of surgical aid, which, however, proved powerless to save her life.

She graduated from the high school and spent two years in the state normal. She has been teaching in the country school for two years. Her widowed mother and six younger children are now living in Chicago and she was their main support.

At ten o'clock this morning the po-

arrested George Ward an employe of the car works charged with murdering Ida Finkelstein. He made a full confession.

He said that the girl called him a "nigger" and slapped his face. Then he shot her in the head and she fell and he then cut her throat.

The knife was found in his pocket with one blade broken. The missing piece was found in the dead girl's neck.

Ward denied any attempt at assault. He is twenty-five, married and was in an insane asylum six years ago after an attempted assault.

Ward hadn't been landed ten minutes before angry yells from the number of three hundred gathered in front of the jail. With shouts of "lynch nigger" they rushed to the door of the lock-up using all manner of weapons as battering rams.

The door couldn't withstand the consecutive assaults and shortly before noon went down with a crash.

In swirled the mob rushing pell-mell for the cell of the negro. With no ceremony a rope was looped about his neck and he was dragged forth while the enraged people beat and kicked him.

Northward the procession marched to the draw of the river bridge. There the body of the negro was swung to the breezes being pelted with all sorts of missiles. Ward, however, was dead practically before he left the jail.

It was not long before the unsatisfied thirst for revenge found vent in a suggestion to burn the body. It took but a hint of this sort when all that was left of the dead man was lowered and with all of the fiendish glee of a southern mob a hastily constructed pyre was raised and the remains of Ward incinerated.

## FIFTY MEN LOST IN A COAL MINE BURIED ALIVE IN BURNING SHAFT

Miners Perish as the Fire Spreads Destruction  
Through a Mine in Wyoming—Heartrending  
Scenes Around Mouth of Pit.

Kemmerer, Wyo., Feb. 26.—A disastrous fire in Diamondville coal mine, No. 1, late last evening was attended with serious loss of life and great destruction of property. There were some fifty miners and fifteen horses incumbered, but one miraculous escape was made, however, by John Anderson, who was working near the mouth of the level when he realized the mine was on fire. With much difficulty he reached the main lead, and by throwing a heavy overcoat over his head and shoulders he pushed his way through the flames and reached the main shaft completely exhausted and terribly

burned, but will recover. He was taken out by friends.

**Flames Drive Rescuers Back.**  
All efforts to succor those farther back have failed, as the flames drove the rescuers back. That all have perished is without question.

The scenes around the mine are heartrending. Mothers, wives and sweethearts weep and tear their hair, and all efforts to calm them prove of no avail. The loss of property will reach an enormous figure. The cause of the fire is unknown. The mine has been played at the sixth level, about two miles from the mouth.

## ROBERT WIN FINALLY SUCCEEDS; HANGS HIMSELF IN HIS BARN

Sorrowful Story of an Industrious Couple on a Farm  
Near Palmyra—Seven Children Left to  
Face the World.

Palmyra, Wis., Feb. 26.—When Robert Win hanged himself yesterday the curtain was rung down on the last act of a sequence of terrible events which have excited the people in this locality more than anything else since the Steinhilber murder. The father and mother are dead, the latter having killed himself last week, and seven small children are left without a home.

A few years ago Mr. Win and his family moved on a farm on the road to Whitewater about four miles from the village. They resolved to make a special effort to secure the place for their own and went hard to work. By innumerable sacrifices and by making veritable slaves of themselves they succeeded in making about \$1,000, and their long cherished plan was about to be realized, this sum being enough for the first payment on the place.

The farm belonged to a woman in Chicago, and the negotiations for the purchase had gone smoothly after a

slight disagreement as to the price. This was satisfactorily adjusted and the home was about to become theirs; but in the meantime, the owner, thinking that matters could never be settled, had placed the property in the hands of some real estate agents, who contrary to all expectations disposed of it. The Wins saw their hopes and sacrifices demolished.

The man who purchased the place was kind hearted and he was perfectly willing to let them remain, but this was not the home that they had so fondly anticipated. After brooding several weeks, the tragic end came.

A Mrs. Win last Saturday killed herself by swallowing poison. Mr. Win took Paris Green and came very near death.

Yesterday morning he went out to the barn as usual and not returning his children went too look for him. They found his body hanging from a rafter in a shed near the barn. He had stood on a milk can tied the rope to the rafter, then around his neck, and kicked the can from under him.

## EATON WILL LEAVE BELOIT COLLEGE

His Resignation as President Was Accepted by the Board of Trustees Last Night.

Chicago, Feb. 26.—After fifteen years as president of the Beloit, Wis., college, the Rev. Edward D. Eaton tendered his resignation, which was last night accepted with regret by the board of trustees of the institution in session at the Union League club. The meeting was attended by twenty-one out of the thirty members of the board and was presided over by E. H. Pitkin.

Ill health is the sole reason for President Eaton's resignation, and in order that he may lose no time in seeking a climate where he can recuperate after his years of hard labor in the ministry and at college, the board granted him leave of absence for the rest of the college year, his resignation not taking effect until the end of the spring term.

Mr. Eaton announced his intention to leave at once for Mexico, where he will visit a brother who has been a long resident there, engaged in missionary work. A committee consisting of President Eaton and Trustees Pitkin and Osborne, was appointed to cast about for a suitable successor.

Several contributions towards the \$350,000 endowment which Beloit is raising were announced at last night's meeting and the prospects are bright that the entire amount will be raised before commencement.

## "Theological Air of Canada."

Professor J. F. Steen, who has resigned the chair of ecclesiastical history and apologetics in the Diocesan Theological college of McGill university, will return to New York to live. "The theological air of Canada," he says, "was hard for me to breathe. Discussion is courted in England and the United States, but not in Canada."

## To Restrict Sale of Poisons.

The Pennsylvania state pharmaceutical board proposes some proper legislation to restrict the sale of narcotic poisons. The opinion is held that certain drugs are too easily procured by persons who have contracted unfortunate habits and those who are cultivating vicious tastes.

## THREAT FROM PRIEST

Says Filipino Federal Party is a Cloak for Protestants to Weaken Catholic Church.

Manila, Feb. 26.—The Rev. Father McKinnon, who was formerly private secretary to Mgr. Chappelle and who is now pastor of the Ermita Catholic church, informed a representative of the associated press today that there were upward of 800 native priests in the Philippines opposed to the federal party and that these would refuse to administer the sacrament to federalists, because they believed the federal party to be merely a cloak for protestant attempts to weaken the power of Rome. He referred to the federal party as resting on an insecure foundation and liable to crumble soon, and asserted that the Methodist and Presbyterian missionaries were using unfair means to induce Filipinos to leave the Catholic faith.

## FINDS MAN'S BODY IN A BOX.

Hunter Develops a Mystery Near Kaskaskia—Head Cut from Trunk.

Kaskaskia, Ill., Feb. 26.—The decomposed and mutilated body of a man richly clad was found in a box on a sand bar close to the Kaskaskia river by a farmer while hunting near here. The box was too short for the body to lie lengthwise. The head was cut off and shoved down in one corner and the rest of the body was jammed in. The box was made of heavy two-inch oak planks and the lid of thin pine. The box had been deposited in the spot three weeks ago, and was not disturbed. It is apparent that the man had been dead about three months. It also seems clear that he was murdered, as the back of the skull is crushed in. The hands were crossed upon the breast and in one hand was held a soft dark-brown felt hat. The length of the box was a little under five feet. The man was about 35 years old, had a stubby mustache and chin whiskers. His hair was slightly gray. His clothes were new, dark in color and of fashionable cut. There is no clue to the murderers and the man's identity is a mystery.

## Boy Becomes Wealthy Ranchman.

A boy who left Saline county twenty years ago returned the other day to buy a carload of bulls for his ranch in No-Man's-Land. He is now located in Ashland, Kan., and owns 5,000 head of cattle and 13,000 acres of land.

## NEW STAR NOT SO BRIGHT.

Lick Astronomer Reports a Steady Declination During Sunday.

Lick Observatory, Cal., Feb. 26.—The following is furnished by Prof. W. W. Campbell, astronomical director:

"Our first opportunity for securing observations of Anderson's new star, discovered in Edinburgh on the 21st, occurred Sunday forenoon. The star was easily found in full sunlight with a 12-inch telescope. At 11 a. m., it was fully half a magnitude brighter than the first magnitude star, Capella, with which it was compared. At 7 p. m. it was fully half a magnitude fainter than Capella, a decline of a whole magnitude since noon. Its brightness continued to decrease throughout the evening.

"Its accurate position as observed by Prof. Tucker is right ascension 3 hours 24 minutes 23 seconds and declination 43 degrees 33 minutes and 34 seconds.

"The star has been observed with the Lick spectroscopic. Its spectrum is peculiar in that it contains no trace of either bright or dark lines in the blue and violet. Its light appears to be strictly continuous, though a few extremely broad bands exist. This is very unusual in the case of a new star. "This new star can be seen by all in the constellation Perseus, of which it is now the brightest member."

## Forest Reserves in Arizona.

The government has created some large forest reserves in northern Arizona, and promulgated rules for their regulation, with a view to prevent their spoliation and to preserve them from fire. The principal lumber mills of Arizona are situated at Flagstaff and Williams, in Coconino county.

## GETS SEVEN YEARS FOR KILLING DAY

Frank Hamilton Sentenced to Prison—Women Weep as the Judge Passes Sentence Upon Him.

Minneapolis, Minn., Feb. 26.—Frank Hamilton, newspaper man, late yesterday afternoon, was sentenced by Judge Brooks to seven years at hard labor in the penitentiary at Stillwater, for the killing of Edward R. Day, society man and millionaire, during a quarrel over a woman in a billiard room of the West hotel on Nov. 25 last. Although an effort had been made to keep the sentencing from the public until the last minute, the room was filled with women. As the court pronounced the sentence several of them began to weep and sob aloud, while the young man, his face a trifle paler than usual stood erect as a statue, without a muscle of his face moving.

Hamilton made no reply when asked if he had anything to say before sentence was passed upon him. The commitment papers were made out this morning and by noon Hamilton was wearing the suit of a convict. He will probably be given clerical work in the prison as he can not stand hard manual labor his physician says.

## WILL ROW IN RACE AT POUGHKEEPSIE

Madison, Wis., Feb. 26.—The Wisconsin varisty boat crew will go east again this summer to row in the big race at Poughkeepsie. There has been considerable discussion on the subject the report having gained currency in the East that Wisconsin would withdraw from the Hudson river event if Pennsylvania rowed at Henley. There has been no foundation for such a report and Coach O'Dea has settled the matter decisively by announcing that the Wisconsin crew will surely be on hand at Poughkeepsie. Personally he does not think that Pennsylvania will row at Henley but in no event will it have any effect on the Wisconsin crew.

## FRENCH VIEW OF THE FILIPINO WAR

Petit Journal Says American Supremacy is an Impossibility As Was That of Spain.

Paris, Feb. 26.—The Petit Journal reviewing the Philippine situation declares that the Filipinos want freedom and not a change of sovereignty. American supremacy is as impossible as Spain's, the Journal says, and the only solution is a withdrawal or the granting of an independent government.

## Mac Arthur Warns Filipinos.

Washington, Feb. 26.—General MacArthur cables the war department a review of the trials given a score of Filipinos sentenced to death for tearing up military tracks, and cutting lines of telegraph. MacArthur commuted the punishment to fifteen years' but issued a proclamation warning the natives that all such cases in the future would receive the extreme penalty of the laws of war. He also warns the natives to avoid associ-

## TO RETAIN OUR HOLD ON CUBA

President's Plan for a Limited Protectorate Will Be Adopted.

## IT WILL INSURE PEACE

Conditions Upon Which the People of Cuba May Have Independence.

## ENDS EXTRA SESSION TALK

Washington, Feb. 26.—Cuba is to remain under the protection of the United States.

The senate committee on Cuba reported a resolution providing for a protectorate over our island ward, and the resolution without much doubt will be adopted by the senate as an amendment to the army bill.

Drawn by Senator Spooner.

There was no opposition to the resolution in the committee, the report being unanimously recommended. Even Senator Teller voted for it and all of the democrats and populists.

It was drawn up largely by Senator Spooner of Wisconsin, one of the best lawyers in the senate and received the complete approbation of Senator Platt, chairman of the Cuban committee.

Right of Intervention.

Reserve  
An inspection of the amendment presented today will show that it gives the United States a rather strong hold on Cuba for some time to come. In its opening paragraph it is a diplomatic and statutory declaration of the Monroe doctrine, and this country explicitly reserves the right of intervention for the preservation of Cuban independence and the maintenance of a proper and stable government.

It is proposed that these guarantees by the Cubans shall not only be in the nature of an amendment to the constitution of the island but shall also be embodied with an irrevocable treaty with the United States.

## Not A Protectorate.

In this way both the organic law of Cuba and the international law which all nations recognize could be invoked by the United States to guarantee its position.

Nowhere in the statement of policy is the word protectorate used and the opinion is generally expressed in congress that the statement submitted gives to the United States all the power that possibly could be asked, while at the same time there is nothing in the expressions themselves which could hurt the feelings of the Cubans.

## PENNSYLVANIA MINERS STRIKE

Dolph Company's Men at Winton Say Agreement Was Violated.

Scranton, Pa., Feb. 26.—The 800 employees of the Dolph Coal company at Winton, this county, have struck because the company failed to pay the 10 per cent increase in wages to a number of its miners, as agreed when the big strike of last October was settled. The company is said to have aggravated the matter by discharging the men who served on the grievance committee. The grievance was referred to the district executive board, which sanctioned the strike.

## Money in the Mining Druggists.

A man in western Kansas keeps ten others at work digging snake root and rosin weed from the prairies for the drug trade. In the last eighteen months he has shipped 35,000 pounds, some of it to Europe.

## HELD A GEORGE WASHINGTON PARTY.

Stanley L. Brink Entertained a Company of Friends on Saturday Afternoon and Evening.

Stanley L. Brink entertained a company of friends at a George Washington party Saturday afternoon and evening. The guests appeared in costume representing George and Martha Washington at different ages and upon different occasions during their career at which each proved to be an artist in his or her particular part. The rooms were decorated with portraits of Washington draped with American flags and festoons of bunting. At 7:30 a colonial dinner was served to which all did ample justice. A souvenir card with a hatchet and a sprig of a cherry tree painted thereon was given to each guest.

After dinner a literary program was rendered wherein the participants showed no lack of art, especially Little Miss Nellie Curtis. The hours which were from five to eight were altogether too short and by the consent of the host were extended to 10:30 at which time the colonial guests departed declaring that an evening with the illustrious statesman and his family had been well and profitably spent.

## Basket Ball Challenge.

The high school girls have received a challenge from the girls' team of the Waukesha high school for a game to be played at Waukesha, Friday evening, March 8. There is every probability that the challenge will be accepted as the local team is anxious for the contest.

## A Fakir's Fair.

A Fakir's Fair is the novel attraction planned for the next meeting of the Congregational church. The usual supper will be held in the church parlors after which those present will be invited to the Sunday school room above.

This room is to be arranged as a street to which no admission will be charged. Here will be gathered the "hot tomale" vender, the man with the "ripe banana," the newsboy with the latest sensations and every sort of street fakir known to modern times. All of these merchants of the sidewalk will be in costume and the plans already made call for an evening of delightful fun. The meeting will be held on Wednesday evening, March 20.

## AMUSEMENT NOTES

The Belle of New York pleased a large and enthusiastic audience at the Myers Grand last evening. It was one shifting scene, made up of handsome women and well dressed men, who as they appeared added their specialty to complete the picture. The play is full of good songs and dances, clever sayings and wit, and furnishes laughter from the beginning to the end. Each character is a contrast to the other to a degree that was refreshing and the interest never lagged.

Edward J. Connelley, as Ichabod Bronson, took the leading part. He had a number of catchy songs which he was obliged to repeat several times, George Talman as the young spendthrift, furnishes the usual amount of fun, while Joseph Kane, as the polite lunatic, kept the house in an uproar whenever he came upon the stage. His antics, queer sayings, strange make-up and extraordinary manner, make his part as Karl von Pumpenick a strong one. Arthur Deagon as the pugilist, and Flo Perry, a pretty and active young miss, as Mamie Clancy, the tough girl, are a strong team and their dances caught the house.

Buelah Dodge made a stunning Violet Gray, the Salvation army girl, and Mea Sallor was fascinating as Fifi Ericot. Gertrude Rutledge as the part of the opera queen also was good.

The dancing of LaBelle Dazie was especially creditable. The chorus is made up of pretty girls while the staging and costumes are of a high standard.

The one great drawback that the audience experienced last night was that the house was not half heated. When the curtain was raised the audience in the front part of the house was treated to a cold breeze that seemed to come out of an ice house.

If Mr. Myers wishes to have his house patronized he should take interest enough in his patrons comfort to see that the house is properly heated.

The coming production of Prince Otto in this city at the Myers Grand on March 12 s being looked forward to with a great deal of anticipation by Mr. Skinner's many admirers. Prince Otto s Mr. Skinner's own adaptation of Robert Louis Stevenson's novel bearing the same name. In the third act Mr. Skinner wears the Austrian uniform and is semi-barbaric in his make-up. Around the shoulder a leopard skin is hung sashwise, the forepaws embracing the body, while the pelt swings free. The uniform is a dazzling scarlet cloth, heavily braided with silver, the military tights of the same color having a curious design in silver braid running down the front of each leg.

This uniform is absolutely correct in style and has been in use in the Austrian army and some of the armies of the smaller German states for centuries. It may be seen today in a number of continental armies, with a very slight modification. The costuming of the play is laid in the period of 1820 and is most picturesque thus affording the ladies of the company ample scope in the dressing of the various characters.

Mr. Skinner is to be congratulated upon the manner in which he has placed his new play, Prince Otto, upon the stage. It is as handsome a production of a romantic play as has been presented on the local stage in a long time and the production will be identical with that presented in New York at Wallack's theatre, earlier in the season for an engagement of six weeks.

A single microbe contains the germ of the most malignant maladies. The blood is the means by which microbes are sent on their deadly mission. Small at first, the microbe soon becomes a giant. Hood's Sarsaparilla is the arch enemy of all germs of whatever nature. Its small doses master these microbes by dissolving and passing them off as refuse of the system.

## MAN SHOT IN A RAID.

J. W. Adams Fatally Wounded in Attack on Topeka House.

Topeka, Kas., Feb. 26.—J. W. Adams was fatally shot during a raid on the Curtis wholesale liquor house at midnight last night. A carload of beer had been unloaded during the day and about fifty men armed with sledges and revolvers broke open the door and smashed the cases. Adams says he was shot by a policeman. The Rev. F. W. Emerson was also hurt, but not seriously.

Officer Boyles, who was on the North Kansas avenue beat, was the first officer at the scene of the smashing. Watchman Connors was close behind him.

"When we arrived," said Boyles, "the crowd yelled, 'mob 'em,' 'burn 'em.' I arrested Dr. Mitchell and the Rev. F. W. Emerson. They seemed to be the leaders. When I got there they stopped carrying on the beer. Dr. Mitchell was giving orders. All the crowd had white handkerchiefs over their faces, but Dr. Mitchell's and the Rev. Emerson's handkerchiefs came off. I went to where they were throwing out the stuff and told them to stop. The crowd fell back toward Jackson street and the shooting commenced. I shot twice in the air. Adams was running toward the crowd when he was shot. He had a sledge and a steel bar in his hands. He didn't say a word when he fell."

Sergeant Goff was on duty at the police station when he received a telephone call for a riot on West Curtis street. Speaking of the matter he said: "It was about midnight when some one telephoned that there was a riot or something going on near Curtis and Jackson streets. I sent word to Officers Boyles and Downey to see what it was and notified the chief by telephone. Officer Parsons went over with the wagon and brought the Rev. Mr. Emerson to the station."

The Rev. Mr. Emerson was booked at the police station at 1:30 on the charge of "resisting an officer." He stayed at the jail until 3 o'clock. His clothes were mused and showed the marks of a struggle. His injured hand was bound up in a handkerchief. He did not wish to say much about the affair as he was under arrest. "It was successful," was all he would say of the raid.

Mrs. Nation was released from the county jail at 11 o'clock last night and at 5 o'clock this morning left for Peoria to act as editor of the Peoria Journal for one day, for which she is to be paid \$150. J. B. McCaffee of this city is Mrs. Nation's bondsman.

Porter May Leave Paris. Paris, Feb. 26.—It is reported here that changes are likely to take place here long in the personnel of the United States embassy. The Daily News correspondent is authoritatively informed that Gen. Porter will shortly hand over the Paris embassy to Charlemagne Tower, United States ambassador at St. Petersburg.

Assistant Commissioner Woodward is making strenuous efforts to be appointed consul-general at Paris in place of J. K. Cowdy, who is credited with a desire to retain his position. It is quite possible that a third party may be appointed to the Paris consulate.

Willing to Sell Island. Copenhagen, Feb. 26.—A satisfactory understanding has been reached by the conferees of the ministry and the financial committee of the rigsdag regarding the sale of the Danish West Indies. The result, it is understood, will shortly be communicated to the Washington government in such form, it is thought here, that it will prove acceptable. The Danish proposal, it is expected, will include some new suggestion, but nothing, it is stated, calculated to defeat the conclusion of the convention.

Pago-Pago Pier Nearly Built. San Francisco, Cal., Feb. 26.—Robert Tibbitts, contractor, who for the last seven months has been building the United States government coaling station and pier in the harbor of Pago-Pago in the Samoan islands, has arrived here. He says the pier and other structures costing \$400,000 will be turned over to the government in about three months. The pier of 365 feet long and eighty feet wide, built entirely of steel.

Mr. Tibbitts declares that there is no doubt that Pago-Pago is the finest coaling station in the world.

England to Have Larger Army. New York, Feb. 26.—According to the Tribune's London correspondent, a great scheme of army extension is spoken of in England, and, it is stated, which have been widely circulated should prove to be correct, much time will be occupied in its consideration.

It is said that the British government proposes to increase the standing army to 150,000 men, but it is hardly credible that such a proposal will be made, as it would mean almost the doubling of the strength of the regular forces.

Killed Over 300 Chinese. Berlin, Feb. 26.—A dispatch from Count von Waldersee says over 300 Chinese were killed when they attacked the Germans at Kuengchang recently. Heffmeister's columns, which started thence, will return to Paoing-fu.

## PERSONALS.

Mrs. E. P. Green has recovered from an attack of the grip at Canasraga, N. Y., by the use of Dr. Miles' Pain Pills.

Among the victims of the grip epidemic now so prevalent, F. Coyle is recovering at Canton, O., by the use of Dr. Miles' Nervine and Pills.

W. E. Nihells, of St. Louis, Mo., who was down with grip, is reported much improved. He used Dr. Miles' Nervine and Pills.

The friends of Mrs. L. Denison will be pleased to learn of her recovery from grip, at her home in Bay City, Mich., through the use of Dr. Miles' Nervine and Pills.

Everybody says that J. W. Udy is looking splendid since his recovery from the grip at his home in Des Moines, Iowa. They all know that Dr. Miles' Nervine was what cured him.

At nearly three score and ten Mrs. Galen Humphrey was fighting against odds when the grip attacked her, but she took Dr. Miles' Nervine, and now her neighbors at Wareham, Mass., remark on how well she is looking.

Prosecuting Attorney Charles L. De Waele, who has passed 'he three-score mile stone, had a time with the grip; but when seen at his home in Roscommon, Mich., the other day, he said Dr. Miles' Nervine was what cured him.

After an illness of five weeks from the grip, Mrs. Harriet Jackson is again about and looking fine. She began taking Dr. Miles' Nervine after the fourth week. Her home is in Bowling Green, Mo.

"I was given up to die from heart and nervous troubles caused by grip. Six bottles each of Dr. Miles' Heart Cure and Nervine cured me."—Mrs. John Wolcott, Jefferson, Wis.

"Grip robbed me of my sleep and I was nearly crazy with neuralgia and headache. Dr. Miles' Pain Pills and Nervine cured me."—Mrs. Pearl Bush, Holland, Mich.

"I had been in bed three weeks with grip when my husband brought me Dr. Miles' Nervine, Pain Pills and Nerve and Liver Pills. I was cured."—Mrs. J. Reinler, Franklin, Ind.

"My stomach was affected by grip and I could eat nothing but crackers and milk. I began taking Dr. Miles' Nervine and Pain Pills and the trouble disappeared."—Mrs. J. Lindsey, Montrose, Minn.

"After suffering for two months from a severe attack of grip I found quick relief and a lasting cure by using Dr. Miles' Nervine, Pain Pills and Heart Cure."—Harry Abbott, Cincinnati, Ohio.

"Failing to find relief from the grip with old methods, I took Dr. Miles' Pain Pills, Nervine and Nerve and Liver Pills and was permanently cured."—Gust. Egan, Jackson, Mich.

"My heart was badly affected by an attack of grip and I suffered intense agony until I began taking Dr. Miles' Heart Cure. It made me a well man."—S. D. Holman, Irasburg, Vt.

## Seven Years for Killing Day.

Minneapolis, Minn., Feb. 26.—Frank Hamilton, newspaper man, has been sentenced by Judge Brooks to seven years at hard labor in the penitentiary at Stillwater for the killing of Leonard R. Day, society man and millionaire, during a quarrel over a woman in the billiard room of the West hotel Nov. 25 last. Although an effort had been made to keep the sentencing from the public until the last minute, the room was filled with women. As the court pronounced sentence several of them began to weep and sob aloud, while the young man, his face a trifle paler than usual, stood erect as a statue, without a muscle of his face moving. Hamilton made no reply when asked if he had anything to say before sentence was passed upon him.

## Will Burn Out a Murderer.

Phoenix, Ariz., Feb. 26.—The posse in search of Bill Fain, accomplice in the murder of Mrs. J. J. Burns two weeks ago, has him at bay in a dense thicket fifteen miles below Yuma. The Cocopav Indians, who sheltered him because of his marriage to a Cocopav squaw, have abandoned him. The squaw is with him, and both are armed. The husband of the murdered woman is in command of the posse, and has sent four dogs to search the thicket, and if that fails will burn him out. All the members of the posse have sworn to summarily execute Fain.

## To Dine with Chamberlain.

London, Feb. 26.—Adelbert Hay, who is on leave here at present from his duties as United States consul at Pratoria, has been invited to dine tomorrow with Joseph Chamberlain, British colonial secretary. It is said that Mr. Chamberlain not only wishes to thank the young consul for his kindly treatment of British prisoners in the Transvaal, but also to honor him as the son of the American secretary of state.

## CHICAGO SCHOOL FADS.

The Sunday Inter Ocean devotes three of four columns to an exposition of the results of exploiting fads in the Chicago schools. The paper states that Superintendent Cooley recently had the grade schools of the city, select by vote 1,000 of the brightest pupils to pass an examination in grade work. Out of this number the 200 that stood the highest were to be awarded prizes in the shape of a free trip to the Washington inaugural next month.

The questions submitted included arithmetic, geography and history, and the results were so startling, both to the superintendent and parents of the children, that the former attempted to have the examination papers destroyed, while the latter are thinking of sending their children out in the country for an education. The Inter Ocean unearthed a lot of the papers, covering all grades, from the fifth to the eighth. As specimens of ignorance in composition, spelling and inaccuracy, it would be difficult to parallel them in a frontier school on an Indian reservation.

Here is a sample of the fifth grade arithmetic:

Q. "How many pints in four gallons and three quarts?" A. "Nearly thirty-five pints."

The same grade, in geography: "Name four presidents of the United States." A. Washington, Blaine, Grant, McKinley, Harrison and Patrick Henry.

In English, same grade: "Which word comes first in the dictionary, 'country' or 'comrade,' and why?" A. "Country," because you should put your native land before even your best friends."

And so all through the grades. Out of some fifty questions asked, almost every answer is incorrect.

Chicago has 325 school buildings, and is attempting to instruct 200,000 children. The city schools have introduced a lot of fads and new methods, that are a curse to any school. So nonsensical and impractical, that scholars go out into life totally unfit to take up its responsibilities. The new method ignores spelling, writing and arithmetic, and in place of these old time fundamental principles introduces "Visualization"—consult the dictionary; "Phonetics"—consult the freak that discovered it; the "Speer" method, which attempts to combine the dictionary and mathematics in questions like this:

"If the altitude of a column is six inches and the perimeter of the base one inch, how many square inches does it contain?"

Fire that sort of a proposition at a twelve year old boy, and by the time he gets through wrestling with the "perimeter" he will be too exhausted to tackle the "altitude", and too sleepy to "visualize" with any degree of success.

Mr. Speer undoubtedly possesses a large mind. If he has feet to correspond, and a good pair of hands, he might better have been employed in plowing corn, than in investing his energies in a text book. While he will doubtless survive the shock, the children, in attempting to follow him, are becoming so dazed, that the "perimeter" of their brain and the "altitude" of their ability, is a problem that "visualization" has not been able to solve.

There are a few things in this world that are not susceptible of improvement. One of them is common honesty, and another is common sense. The Chicago school board appears to be destitute of both.

The average man of forty today, who graduated from the country school twenty five years ago, possesses a more practical education, and turned it to better account, than will be possible to the grade graduates of the Chicago schools.

The Inter-Ocean is doing good work for the parents and children in exposing sentimental fads.

## INFORMATION DESIRABLE.

The Gazette will send out in supplement form, in a few days, the address of Mr. Adams and others who spoke before the committee in favor of the primary law. The people are entitled to all the information that can be obtained on the subject, as well as to all the time necessary to digest it.

People usually do not read legislative bills, especially of 6,000 words in fine type. It is safe to say that not one voter in 100 has ever read the primary bill. Two of the leading farmers at the convention at Mil-

ton, where the measure was unanimously adopted the other day, said afterwards that they had not read the bill. They were furnished copies, and after reading, sent in a protest.

Men are a good deal like sheep in some respects. They have confidence in leaders, and where a measure is well presented, and only one side of it discussed without opposition, it is not difficult to get endorsement.

Eugene V. Debs carried the country by storm a few years ago and thousands of his sympathizers were cultured, intelligent people. The Haymarket riot was but an incident of revolution that would have been wider spread, had not the strong arm of the law put a sudden check to the movement and given the people an opportunity to come to their senses.

Jennings W. Bryan went through the country like a whirlwind, carrying people off their feet by the millions and influencing them to endorse a policy that would have carried in its work ruin and national destruction. The tide was only checked by the aid of sober level headed democrats, breaking party ties and life long associations in the interests of good government.

Governor La Follette made a tour of the state last fall, receiving a grand ovation wherever he appeared. This was right, and spoke volumes for party loyalty and party harmony. Mr. Strang, of Oshkosh, accompanied him on the trip and his vivid imagination prompted him to believe that the great crowds that greeted the party, "60,000 to 75,000 a day" were inspired by their desire for a primary law. Mr. Strang should change his drinks or his goggles.

It is undoubtedly true that if the car in which Mr. Strang traveled, had displayed a banner sixty feet long, announcing "The Primary Law" in letters that could have been read a mile away, that the same crowd and enthusiasm would have been in evidence. But, because of this fact, it does not follow that people are pining for a law that they know nothing about, and that at its best is an experiment of doubtful expediency.

Give the people both sides of the question, with plenty of time to think, and then let them have a chance to say what they want and everybody will be satisfied. The will of the people is supreme in this country, and that is why it is a good land to live in.

The Primary Law should be discussed fairly and without malice or personality, and whatever decision results will be satisfactory.

## HARMONY MOST DESIRABLE.

If reports from the capital are reliable, there is a good deal of foolish talk going on, regarding the success or defeat of the Primary law. "We propose to stand or fall with the law." "If defeated, it will become the issue of the next campaign," and a lot of similar expressions that are too childish to carry any weight.

If the Primary bill wins, it wins because a majority of the legislators vote for it. If defeated, it is because a majority vote against it. In either event there is no occasion for any feeling in the matter. Governor La Follette is no longer a private citizen. As governor of the state, he rises above the realm of party partisanship, and becomes the executive of all the people.

His supporters, or the men who opposed him, have no right to use his name in connection with a prospective rupture in the party. He can not be the exponent of a faction while governor, and has no desire to be.

While the discussion of the bill is earnest, and men on both sides do not hesitate to express their convictions, there is no occasion for bitterness. Harmony in the party is worth vastly more than the success or defeat of any measure. Whatever else we have, let us have and preserve peace.

## COLD

Any paper that goes to press these days without a mention of Carrie Nation, exhibits a lack of enterprise that is deplorable. Carrie Nation is a product of Kansas, she couldn't be anything else. David Nation keeps house for her. He couldn't do otherwise and be happy. Carrie is a reformer. She has practiced on David. Carrie has numerous opportunities as a bread winner. David would like to have her come home and make bread, Carrie and David comprise the Nation household. They enjoy a National reputation through no fault of David's. He saws wood, consoled with the sentiment: "Though lost to sight, to memory dear."

Chicago is getting ready to elect another democratic mayor. The republicans have so many good men, and the Civic Federation and all around reformers are so busy in weighing them up in an effort to select a candidate who is so straight that he leans the wrong way, that the democrats will slip in and capture the prize as usual. While Chicago is entitled to a good mayor, the reformers want him to be "goodiey" and the people won't have it.

Whether the Primary law was rec-

ommended or demanded in the platform, makes but little difference. While the legislature is beyond the power of the people's demands, they are recommending very earnestly today that action be delayed on the law until they can be heard.

Tesla has invented a new lot of promises of another invention. Congressman Lentz ought to forfeit the respect of political and personal friends for his insult to American citizens and encouragement of desertions from the army in the Philippines.

While the Milwaukee Sentinel is non-committal on the Primary law so far as an editorial expression is concerned, the slant of Madison news indicates that the paper is not in sympathy with the measure.

The Primary Election bill has the disadvantage of asking a man to know his politics. Some of our politicians would have to corral their elastic creeds.

Mr. Roosevelt has just returned from his training quarters in Colorado, prepared to meet such men as "Pitchfork" Tillman.

Steve Brodie jumped into fame and won a fortune in dime museums. Mrs. Nation ought to follow suit.

The Chinese New Year's day has just passed, celebrated by a new batch of accessions to the Power's demands.

## UNDER THE SEA.

Schemes Are on Foot to Unite England with the Continent.

It may be a surprise to know that there are two projects in existence at the present moment for a submerged railway across the English channel. Dec. 17, 1884, there was registered a "Channel Bridge and Railway Company," its offices are at 69 Rue de la Victoria, Paris. It was formed to acquire the business of the International railway company, du Detroit de la Manche, Limited, and "to make further investigations, etc., with a view to the construction of a bridge or viaduct across the English channel (as a means of communication between England and France)." It was decided to construct a submerged bridge fifty feet below the lowest tide and to run thereon an electric car capable of transporting four railway trains, which would be secured very much in the same way as the trains are fastened on to the ferry boats between New York and New Jersey. The directors' report, recently submitted, stated that the work could be completed in five years at a cost of not exceeding \$70,000,000. The other submarine railroad scheme has been evolved by an enthusiastic Frenchman, M. A. Mottier by name, and it differs in some details from the one just mentioned. The permanent way is to be thirteen feet in width and some thirty feet above the bottom of the channel. This would not interfere with navigation and would afford a secure bed for the rails, being built of solid masonry and anchored to withstand the currents. The elevated platform is to be 320 feet long, 125 feet wide and 125 feet above the rails. It will be capable of taking several railroad cars at once, to say nothing of animals, baggage, and freight. On it there will be saloons, heated and lighted by electricity; smoking rooms—in fact, all the comforts that are to be found today on the finest ocean greyhound. The seagoing car imagined by M. Mottier will be propelled by an engine located on the platform and will be worked either by steam or electricity. The engine will operate a drum, over which a chain will wind, and the car platform and submerged carriage will be thus drawn from one side of the channel to the other. M. Mottier estimates the total cost of this unique undertaking at the small sum of \$3,750,000 and promises a return of \$500 to \$2,000 a day, making calculation for twenty trips every twenty-four hours.

## COLD

The quickest relief, for a cold, is by Scott's emulsion of cod-liver oil.

We all have colds, you can try it and see. You will find the edge taken off in a night, and, in three or four days, you'll be wondering whether that cold amounted to anything anyhow.

That's relief. If you tackle it quick, the relief is quick and complete, if you wait till the cold is in full possession of head and lung, why, of course the relief is quick if it comes in a week.

A little emulsion won't clear and restore your whole breathing-machine in a minute; don't be looking for miracles.

We'll send you a little to try, if you like.

SCOTT & BOWNE, 409 Pearl street, New York.

## Cost of Being an Earl.

It seems that Earl Roberts will have to pay, in one way and another, something like \$2,000 for the honor of being an earl. The greater part of this, of course, will be the cost of the coronet, but the charge is swelled by fees of all sorts which many people will think ought to be abolished. Bismarck was once made furious by a charge of this kind. The Spanish government offered to invest the chancellor with the order of the Golden Fleece, and the prince promised to accept the honor if the government would send the order and its insignia to him, instead of expecting him to go to Spain to receive it. The request was complied with, and a few weeks after the arrival of the order and its insignia at Friedrichsruhe there came a bill for 8,000 francs. Bismarck sent for the Spanish ambassador. "If I had known the cost," he said, angrily, "I should not have accepted the honor. In any case, I won't pay it." Spain had to get along somehow without its 8,000 francs, for Bismarck never gave way.

## Congressman Cannon's Quaint Humor.

Congressman "Joe" Cannon called at the adjutant general's office the other morning and found a crowd of senators waiting to see Secretary Root about army commissions for their constituents. "Uncle Joe" looked about him for a minute and said: "The senate will please come to order."

## SUDDEN CLOSE OF AN EVENTFUL LIFE

### DEATH OF W. W. WOODMAN, LAWYER AND POLITICIAN.

Brilliant Career Ended at the Home of His Son, C. B. Woodman, in the Town of La Prairie—Was State Senator and Chairman of Jefferson County Board.

W. W. Woodman, for over half a century one of the most brilliant lawyers and prominent politicians in the state, died at the home of his son, C. B. Woodman in the town of La Prairie this morning at five o'clock. Death came as the result of a lingering illness due to the infirmities of old age, although the end was hastened by a severe attack of hemorrhage of the bowels.

Although Mr. Woodman had never been a resident of Rock county, having been brought here six months ago by his son in order that he might have the best of medical care and nursing, still he was well-known throughout the county especially by the older members of the legal profession. His home was at Johnson's Creek, Jefferson county, where his aged wife still resides.

Mr. Woodman was born in New York state, March 24, 1818 and had thus nearly completed his eighty-third year. In early life he came to Wisconsin and settled in the town of Farmington, Jefferson county with which county his life has been closely identified. For over fifty years he practiced law at Farmington and Johnson's Creek and for forty years he was a justice of the peace. For years he has been a member of the Wisconsin State Bar association, his brilliant intellect, his rare ability and his true worth as a man enabling him to stand high in the esteem of his fellow members of this illustrious association.

He was the warm personal friend of eminent jurists and of men high in the political power of the state and yet in all of the brilliancy of his public career it was in the home circle that his kindly nature showed in all its loveliness.

Mr. Woodman ever took a lively interest in the political life of his country and of the state. He was elected to the state senate in '69, '70, '71 and '72 and to the assembly in '53 and '56. He served as chairman of the town board of Farmington and also as chairman of the county board for a number of terms.

One son, W. D. Woodman, followed the profession of his father and is now located at Denver. Deceased leaves two sons, C. B. Woodman of the town of La Prairie and W. W. Woodman of Berlin, Wis., and one daughter, Mrs. James Kilmer of Saranac, Mich.

The bereaved widow is seventy-six years of age and in her sorrow she will have the sympathy of those who knew and admired her husband.

Funeral services will be held from the home of the son, C. B. Woodman, Thursday morning and at Johnson's Creek on the same afternoon at two o'clock.

### MADAME FRIEDLAND'S LECTURE

The Lecture on Russia to Be Given Under Auspices of the Art League.

Madame Sofia Lvovna Friedland of Moscow, Russia, will deliver a lecture on "The Historical Development of the Russian Woman" Thursday afternoon, February 28, at the Sunday school room of the Congregational church.

Madame Friedland is a woman of high education and refinement, and her lecture affords glimpses of the life, education and progress of the women of Russia presented in a most interesting manner.

The club women of this city are especially invited to hear and meet this charming Russian woman. Admission twenty five cents.

### The Experimental School.

A number of the residents of Emerald Grove, Shopiere, Arton and Johnston are figuring on attending the experimental school at Madison on Thursday of this week. They will be accompanied by County Superintendent of Schools David Thorne and will leave on the Northwestern at 6:05 a. m. It is desired that all wishing to make the trip be at the station at the station at this time.

### False Alarm of Fire.

An alarm of fire turned in from box 51, at the corner of Jackson and West Milwaukee street at 8:30 o'clock this morning called the fire department to the Mackin block on West Milwaukee street. It proved to be a false alarm, and was caused by smoke from a salamander which was being used by some men who were cleaning out the cellar. The smoke went up through the stairway into the store soon to be occupied by Koerner Bros., and escaped through the transom over the door. A man passing by saw the smoke, and supposing the building to be on fire, turned in an alarm.

### Two Funerals.

The funeral of William Haight was held from the home of his parents at Hanover at 12 o'clock today. The interment was in Plymouth cemetery.

The funeral of John O'Leary will be held tomorrow morning at 10:30 o'clock from St. Patrick's church. The interment will be in Mt. Olivet cemetery.

### FEAST IN HONOR OF ST. MATTHIAS' DAY

Father Goebel Attended a Dinner Party at Beloit Given By Father M. J. Ward.

Rev. Father W. A. Goebel was in Beloit yesterday to attend a dinner party given by Father M. J. Ward. Yesterday was St. Matthias' day and Father Ward being named for the Saint conceived the pleasant idea of inviting some of his particular friends among the priesthood to assist him in honoring the day.

Father Ward is a jovial host and the priestly party had a right royal time. The guests were unanimous in the hope that their host would continue in the custom of honoring St. Matthias' day in a similar manner for many years to come.

## STREET RAILWAY CO. NETS \$1,100 PROFIT

### ANNUAL MEETING OF THE STOCKHOLDERS LAST NIGHT.

George W. Blabon is Re-elected President—Several New Improvements in Equipment Were Discussed and Will be Effected in the Near Future—The Directors Elected.

The annual meeting of the stockholders of the Janesville Street Railway association was held yesterday afternoon at which time the following directors were elected: George W. Blabon, James Shearer, F. S. Winslow, G. M. McKey and T. S. Nolan. Mr. Nolan was elected to succeed W. T. Vankirk.

The report of the secretary and treasurer, Edward L. Blabon, which was verified and approved, showed that during last year the company had netted a profit of \$1,100 which is an unprecedented event in the local street railway history. From the laying of the tracks in this city until Supt. George J. Hurd came here there was an annual deficit and when Mr. Blabon sent Mr. Hurd here he made the statement that unless the line could at least be made to pay its running expenses the rails might be pulled up.

To Mr. Hurd's efficiency his practical electrical knowledge, his executive capabilities and above all his desire to please the public and to give the public the best possible service under the existing circumstances is due the success and the growth of the street railway business in the past two years. He gives his personal attention to all of the details of the business and his summer excursion plan ride did much towards educating people to the use of the cars. While the system has improved wonderfully under his supervision, he does not rest content but intends that it shall be improved continually.

After the meeting of the stockholders had adjourned yesterday the board of directors met and elected the following officers:

President—George W. Blabon.  
Vice President—James Shearer.  
Secretary and Treasurer—Edward L. Blabon.

Several new improvements in the mechanical equipment of the line were discussed and will be effected in the near future.

## HAVE PURCHASED SERVATIUS STOCK

The Misses Schmidley of This City Have Gone in Business for Themselves.

The purchase of the Helen Servatius stock of dry goods and ladies' furnishings has been made by the Misses Anna and Amelia Schmidley of this city. Tomorrow Miss Servatius will take the train for Iowa, where she assumes entire charge of another store. The new purchasers of the Servatius stock in this city are not strangers to the citizens of Janesville. The Misses Schmidley have for years made this city their home. For many years Miss Anna Schmidley was employed by the dry goods firm of J. M. Bostwick & Sons. While in this position she made friends by the score by her genial and ever pleasing disposition. During the past few days the Misses Schmidley have made the purchase of a consignment of new goods in the Chicago and the Eastern market. When the doors of their spacious store are thrown open to the public in March, their stock will be practically new from one end to the other. The Misses Schmidley are possessed of a host of local friends who will join in wishing them unlimited success.

## IMPROVEMENTS AT THE HIGH SCHOOL

Important Action at Regular Monthly Meeting of the Board of Education Yesterday.

The third floor of the high school building is to be finished off. The gymnasium is to be fitted as a first-class auditorium, and the domestic science department is to be moved to this floor, new rooms being provided for the accommodation of this department. This action was taken at the regular monthly meeting of the board of education yesterday, Com. C. O. Maclean having made the motion.

By fitting up this large auditorium, which will accommodate over one thousand people, the board will relieve the citizens of a large annual expense, as the auditorium will be used for the commencement exercises, thus doing away with the rental of the opera house. It is thought that the new room will also fill a long felt want as a place for the holding of meetings or lectures of general public interest and educational value. Its use as a gymnasium will be in no way impaired.

The domestic science department is to be moved to the third floor to make more room for the manual training department which has grown and developed so rapidly that its present quarters are entirely inadequate.

On recommendation of the committee on text books, Hallett's psychology was substituted for Baker's text book on the subject, now in use in the high school.

Bills to the amount of \$280.82 were

ordered paid, and the high school stereopticon was loaned to the Trinity church society for use during lent.

## PASSENGER ENGINE STRIKES BOB SLED

Farmer Stuck On a Road Crossing Unhitches His Horses and Leaves Load On the Track.

When the Beloit and Rockford passenger train on the Chicago, Milwaukee & St. Paul road pulled into the station at this city this morning, the engine had a badly wrecked pilot, part of which had to be removed before the train proceeded on its way to Madison.

According to the trainmen they had a narrow escape from a serious accident, and were thankful they escaped as easily as they did.

The train was coming toward this city this morning on its regular trip, in charge of Conductor Andy Le Roy and Engineer James Gregory. They were running at a high rate of speed when they dashed into a bob sled loaded with cord wood, standing on a road crossing just below Afton. The sled was demolished and the wood scattered in all directions. The train was stopped as soon as possible after striking the load. It was seen that the engine was not seriously damaged, and they came on to this city. The farmer who caused all the trouble was hauling wood with a bob sled and attempted to cross the track with his load.

### WALKING IN SLEEP.

How the Phenomena Are Explained on Scientific Basis.

The feat of the young Illinois student who walked twenty miles while asleep is certainly a remarkable one of its kind. Usually somnambulists make short trips and, unlike the subject in question, awake to find themselves in curious and oftentimes alarming positions. The weirdness of the exploit and the unnaturalness of its accomplishment give that becoming air of mystery which naturally appeals to the ignorant and the superstitious. In reality, however, the phenomena are very satisfactorily explained on the assumption that certain areas of the brain are for the time being awake, while the other portions are asleep. Thus, the speaking center may be active and the dreamer may carry on a connected conversation with a listener and be perfectly oblivious to any other impressions. Very often under such circumstances a secret most carefully guarded during waking hours may be disclosed to an alert and inquisitive roommate. Not infrequently, also, poems have been thus composed and mathematical problems solved when the respective cerebral lobes involved are on extra sentinel duty. The same can be said for somnambulism in many of its forms, the muscular sense pertaining to walking being in a curious condition of exalted activity. Strange to say, the victims of this distressing malady have no recollection of their adventures although it is maintained that they appear to see obstacles and avoid them and their various movements indicate intelligence and reason. In many respects the conditions represent some of the varieties of hypnotism, differing from them only in the matter of absolute auto-suggestion, as against the domination of an outside party. The causes of the trouble are quite obscure—at least no definite ones are given by medical authorities. It is reasonable to infer, however, that in the aggravated cases the disorder has a cerebral origin akin to some of the varieties of epilepsy and requires the usual treatment applied to the latter affection.—New York Herald.

## CANNING FACTORY AGENTS TO BE HERE

P. Hohenadel and Superintendent to Meet Farmers at Helms' Seed Store Monday and Tuesday.

Mr. P. Hohenadel, one of the promoters of the new canning factory and his superintendents will be in this city on Monday afternoon and Tuesday next; for the purpose of ascertaining how many farmers in the vicinity of this city desire to make contracts to furnish them with garden vegetables for the factory.

They will make their headquarters at Walter Helms seed store and will be there Monday afternoon and all of Tuesday. Any or all farmers that are desirous of making contracts for acreage can leave their names with Mr. Helms. Mr. Hohenadel and his superintendents will be around the city for a month and will spend their time riding through the country and interviewing farmers on this subject. They desire before proceeding any further in the business of building a factory to know exactly how much produce they can count on getting.

They wish to make contracts for sweet corn cabbage and cucumbers. They will want at least four hundred acres of cucumbers, three to four hundred acres of cabbage, and from fifteen hundred to two thousand acres of sweet corn. They must secure this amount of acreage to successfully carry on a plant such as they contemplate building. The want to be sure in regard to the produce to run the plant before they put any money into buildings and machinery.

They have secured plans for all of the machinery they need to run the works, and have made arrangements with the manufacturers to deliver them in time to commence the season's business.

It is of the utmost importance that they meet all of the farmers who will make contracts for acreage when they are here next week as the project has now reached a stage where it all hinges on securing the necessary amount of acreage.

The subscription to the enterprise is still about two hundred dollars shy of the required amount but the committee are still at work on the matter and think that there is no question but the balance will be raised by the time the gentlemen are satisfied as to their ability to secure the acreage. As the matter now stands the canning factory is an assured thing if the farmers in the immediate vicinity will furnish the produce necessary to operate it.

Mr. Hohenadel will be at the Helms seed store on Monday afternoon and Tuesday and the farmers are requested to call and see him.

### Happy Surprise Party.

Mr. and Mrs. Albert Knuth were very happily surprised last evening by an unexpected visit from a party of their friends. The event was in honor of Mrs. Knuth's birthday and the evening was devoted to the enjoyment of cinch, Mrs. Frank Albrecht winning the first prize and Mrs. John Lempke the booby. An appetizing supper was served after which the guests coupled their good-nights with sincere congratulations, wishing both their host and hostess many happy returns of the day.

## LATE TELEGRAPHIC NEWS.

## TEN COLUMNS PURSUE DEWEY

Boer Leader Keeps English Army Very Busy.

## RACING FIFTY MILES A DAY.

Instead of Being "Routed" from Cape Colony Dewey Is Leading the English on a Wild Goose Chase and Tiring Them Out.

London, Feb. 26.—Gen. Dewey still enjoys sufficient liberty to engage the attention of ten separate British columns. He is presently "routed" out of Cape Colony. Following the beating inflicted on him by Col. Plumer Saturday at Dusseldorf, his forces split in two, one-half going east and the other west, and all day Sunday and Monday they were tirelessly and vainly hunted by the British cavalry.

Gen. Dewey led his followers across the railway north of De Aar Sunday and they now hover in the neighborhood of Hopetown, twenty miles south of the Orange river, whose rising tide may yet, it is hoped, co-operate with the British horsemen in driving the Dutch raiders to cover.

The invaders attacked Richmond, in the center of the colony. The town is held by a handful of local guardsmen, whose ability to resist pending the arrival or reinforcements is a matter of doubt.

Gen. Hertzog's eastern commandos are tearing northward through the Prieska district at the rate of forty-eight miles a day. They hope to join forces with Gen. Dewey.

Gen. Botha has eluded Gen. French's Transvaal column, escaping northward toward Komatipoort with several thousand men.

## Hints at British Desertion.

London, Feb. 26.—The war secretary, Mr. Brodrick, in the house of commons, discussing a motion to publish the proceedings of courts of inquiry, said it was the purpose of the government to make a general inquiry into the conduct of the war in South Africa, when the war was substantially ended. Nobody could say the war was substantially ended while 200,000 men were engaged in the military operations. The government, in the meanwhile, had investigated twenty painful incidents of surrenders of British troops. A large number of officers had been made accountable and ten had been dismissed. No officer returning from South Africa would be employed at home without Lord Roberts and Gen. Kitchener's recommendation. Scarcely a week passed without an officer being removed or otherwise punished.

## A TRYING POSITION

Janesville Readers Will Appreciate This Advice.

A constant itching tries your patience. Nothing so annoying. Nothing so irritating as itching piles or eczema. To scratch the irritation makes it worse, to leave it alone means misery. Some citizens can tell you how to be free from these troubles. Read the following:

Mr. L. Lawrence, of 403 S. Franklin St., engineer at the Janesville Electric Light Co., says: "I tried about everything recommended for itchiness of the skin, but found nothing to give me relief until I struck Doan's Ointment at the People's drug store. I had an affection of the skin on my face caused from the burning oil about the engine and dynamo. My face itched and annoyed me, and rubbing it only made it worse and made it sore. I could hardly stand shaving, for the skin broke and bled. A few applications of Doan's Ointment removed the itchiness and healed up my face in a few days. I would not be without this remedy in my house, and I certainly recommend it to others in need of such a preparation."

Sold for 50 cents per box by all dealers. Foster-Wilburn Co., Buffalo, N. Y., sole agents for the U. S. Also on sale at King's Pharmacy.

## DOINGS OF THE LAW MAKERS.

ILLINOIS.

Monday, February 25. The farmers and live stock raisers of Illinois are after the Chicago stockyards. They say they are getting weary of paying terminal charges in addition to the regular freight. They have framed up a bill against this practice, which will be introduced in the house by Representative William A. Rankin of Iroquois county, who is regarded as one of the most substantial farmers in that section of the state. The bill is different from the general run of bills aimed at stockyards, because there seems to be no suspicion that there is anything of the sandbag character attached to it.

In brief the bill provides that the charge for the entire service of receiving a car load of live stock and delivering it to any public stockyard in the state shall be included in the single item of freight rate, and this freight rate charge shall cover and be the only compensation which the railroads or other common carriers can charge, collect or receive for each and every expense or service connected with the transportation of the live stock from the shipping point to the stockyards.

## Yerkes Sells Railroad Holdings.

Chicago, Feb. 26.—Final contracts were signed in New York yesterday by which the individual holdings of Charles T. Yerkes in the various traction companies in Chicago passed into the hands of a syndicate of New York and Chicago capitalists friendly to the Union Traction company. The buying syndicate was headed by Thomas Ryan of New York, Blair & Co. of New York and the Illinois Trust and Savings bank of this city. The price was practically \$5,000,000, a little more than the market price of the securities sold.

## Big Fire in Detroit.

Detroit, Mich., Feb. 26.—A fire started in the fourth story of the building occupied by Grinnell Bros., wholesale and retail piano and musical merchandise dealers, Nos. 221 and 223 Woodward avenue, shortly after 2 o'clock this morning, and in an hour the third and fourth floors of the building were completely burned out, with the fire still burning fiercely. Grinnell Bros. are state agents for a number of the more prominent makes of pianos, and carried a stock valued at \$100,000.

## Puts a Bullet in Her Brain.

Seattle, Wash., Feb. 25.—Mrs. Louise Dryfoos, wife of L. Dryfoos, a well-known wholesale liquor dealer of this city, committed suicide by shooting herself with a 45-caliber revolver. She lived for three hours after the shooting. It is thought that her mind was affected by illness. Her husband left her after dinner to transact some business at his store down town and during his absence she called up several friends over the telephone. She then locked herself in her room and shot herself. Before her death she said that she had committed suicide because her husband did not love her.

## Illness Blocks Moser Trial.

Pekin, Ill., Feb. 26.—The Sam Moser murder trial is at a standstill and will not be resumed for several days. Dr. Warren reported in court that Juror Miller, who is sick, was improving fast and would probably be able to take his place in the jury box by Friday. Judge Puterbaugh ruled against the discharge of the juror and the impaneling of another in his place.

## TERMS OFFERED TO CUBA.

Senate Committee Agrees to An Amendment.

## UNITED STATES TO BE FAIR.

This Country in Effect Will Agree to Preserve the Integrity of Cuba's Foreign and Financial Relations—What the Cubans Think of It.

Washington, Feb. 26.—Action taken by the senate committee on relations with Cuba seems likely to remove all necessity of an extra session of congress. The committee unanimously agreed to an amendment that is to be attached to the army appropriation bill, and at 12:15 Senator Platt of Connecticut, chairman of the committee, reported it to the senate. In effect the report says that the United States shall at all times preserve the integrity of Cuba's foreign and financial relations.

After the amendments had been offered debate on the army bill was resumed. It soon became apparent that, even if the Cuban amendment should be satisfactory to all elements in the senate, all danger of an extra session had not been removed. The pending Philippine amendment was still a bone of contention, and the remainder of the session until the recess for dinner was occupied by Democrats in opposition to the proposal to confer upon the president absolute power to establish civil government in the Philippines.

## CUBANS DISCUSS RELATIONS.

Question of Sending Committee from Havana to Washington.

Havana, Feb. 25.—The Cuban constitutional convention met in executive session and discussed the question of the future relations between Cuba and the United States. It was evident that the delegates were deeply impressed with the recommendations of the United States senate committee on relations with Cuba, cabled from Washington. When Senor Nunez was asked his opinion he replied: "That settles it. If the United States government insists upon naval stations I have nothing to say." The report of the special committee on relations declared that any scheme of relations accepted by the convention could not bind the future republic, and must be approved by the Cuban congress. The members of the committee were unanimous on this point. Senor Nunez introduced a resolution that the convention should appoint a committee either to go to Washington or to meet a committee from the United States congress to discuss the question. This proposal was not favored by a majority of the delegates, but no action was taken upon it.

## WILL DELAY BUILDING OF SHIPS.

House Yields to the Senate on Demand for Retrenchment.

Washington, Feb. 26.—Despite the recommendations of its conferees, the house yielded to the senate on the naval bill and decided not to further insist upon the construction of any more battleships and two cruisers. The bill as it passed the house provided for two battleships and two cruisers, but the senate struck out that provision and substituted the construction of three Holland submarine boats. The increase of the navy beyond those ships already authorized will thus be delayed another session.

## Compromise as to Hazing.

The proposed West Point hazing restrictions are proving a stumbling block to conference agreement on the military academy bill, but it is understood that a plan is now under consideration for compromising the differences. This contemplates the omission of the proposed total disability to hold a commission in the army, navy or marine corps when once dismissed for hazing, and the substitution of a two years' disability from the date of graduation of the class to which the convicted hazer belongs.

## FRIGHTFUL DEATH OF WOMAN.

Hair Catches Fire from a Grate and She Is Horribly Burned.

Cincinnati, Ohio, Feb. 26.—Mrs. Della Perry was almost cremated alive in her room in a boarding house at 1114 Elm street while taking a foot bath. She was sitting in front of the grate and her hair caught fire and ignited her clothes. She threw herself on the bed and cried frantically for help. Mrs. Bacharach and Mrs. Anna Vogel rushed to her room, but instead of smothering the flames both women ran downstairs from the second floor to a hydrant at the rear of the yard to secure a bucket of water. While they were gone the mattress on the bed caught fire. Mrs. Perry jumped from the bed and ran to the top of the stairs, where she fell in a faint. By this time assistance came and the flames in her clothes were extinguished. Physicians were summoned, but their efforts to save Mrs. Perry's life were of no avail. She died in agony. She was a bride of but a few weeks.

"Grip made me very weak and nervous with tightness of chest and headache. Dr. Miles' Pain Pills and Nerve gave me quick relief."—Mrs. Clara Butler, W. Wheeling, Ohio.

## Attractive Women

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of features.

The snap and spirit which health gives to the eye, the movement, and the speech are full of magnetism.

Sickly women can't understand this. They only know that they are miserable, and their efforts to be attractive are languid and weak.

Woman's influence in the world is limited by her strength, and the strength of health is real strength.

It brings with it beauty and grace and loveliness of disposition.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. If she would be all she may, she must guard well against the signs of ill health.

Regular and painless menstruation is absolutely necessary. The help which Lydia E. Pinkham's Vegetable Compound gives to women who are attacked by any disorder of the feminine organism is real, permanent help. It cures all weaknesses of the organs and makes it possible for women to retain their health and beauty to mature years.

## Mrs. Bazley Tells of Relief from Suffering.

"DEAR MRS. PINKHAM:—It gives me great pleasure to say, at the same time, I feel it a duty to send you this testimonial in regard to your Vegetable Compound. It has worked wonders with me. I was a great sufferer with ulceration of the womb, had such backache and bearing-down pains that it required a great effort to do a small amount of my household duties. Since taking Lydia E. Pinkham's Vegetable Compound, I am able to do all my own work and feel like a new woman. Your Sensitive Wash also is something I could not afford to be without. I cannot say enough in behalf of your remedies. I heartily recommend them to all suffering women."—MRS. F. C. BAZLEY, 724 4th Ave., Detroit, Mich.

\$5000 REWARD

Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank, of Lynn, Mass., \$5,000, which will be paid to any person who will show that the above testimonial is not genuine, or was published before obtaining the writer's special permission.—LYDIA E. ## HIS INSPIRATION

There was much comment, and some of an adverse kind, too, when the fact became known that young Dwight Harfield, fresh from the theological seminary, had been called to the pastorate of the church in his native town.

The congregation of St. Elizabeth's was quite as wealthy, fashionable and aristocratic as any which this particular western town of 75,000 inhabitants afforded.

There had always been over this church some man just old enough, just conventional enough, to be correct and proper. But this latest act of a supposedly intelligent vestry had knocked all the traditions and precedents sky-high.

Comment is very volatile, and somehow linkings of what was passing in the minds of the people, like subtle fumes, came to the consciousness of that very respectable and commonly astute body, the vestry, and it disturbed them in spite of the security they felt in their position.

Suppose now, for instance, the thought would come in spite of its manifest reflection upon the reverend dignitary—that the bishop of the diocese, upon whose casual words they had so confidently depended, was, after all, only an interested friend of young Harfield and his words, the words that had trapped them, only "springs to catch woodcock."

The bishop had said, apparently without intention, that the church which secured that young Harfield first might be congratulated, because he would not be available soon again. He had in him the making of a great divine, and he was sure to go high in ecclesiastical orders.

Now, they were seriously considering whether or not they had been taken in by a theological subterfuge. Might not the bishop, if designated as authority and appealed to, say that he had merely given an individual, private and casual opinion, and could the vestry say otherwise?

There was one, however, who, though she felt tremulous over the trial, never for a moment doubted the young clergyman's ability to come out of the ordeal triumphantly, and that was Katharine Harmon, the girl who loved him.

She was the daughter of one of the vestrymen, Abram Harmon, and she frequently heard from her father the fears and misgivings which agitated the body of which he was a member.

Katharine and Harfield had been perfectly honest with the staid old gentleman. He knew of the love that from childhood up had existed between them, and while he did not actually discountenance it he looked upon their affection with no favorable eye. He did not fancy a minister for a son-in-law.

When before entering upon his special theological course Harfield had asked his sanction to their betrothal, he had been given to understand that he was only tolerated on probation and that the subsequent confirmation of his position depended entirely upon his accomplishing something.

It had come to be understood between Katharine and her father that should Dwight Harfield succeed at St. Elizabeth's he might be considered to have accomplished something.

The momentous Sunday came, and, without seeing Dwight, Katharine went early to church. The Harmon pew was far to the front, and when the young rector entered his eyes could scarcely help falling immediately upon the girl he loved.

The chapel was crowded, the people expectant. But the young clergyman looked down in the heart of one person there and saw trust and help and love. And he grew strong, strong as a very Samson of the gospel.

He forgot his audience. He lost himself in his subject. He spoke with a fervor, an eloquence, a directness, that thrilled the people before him.

The old, staid, respectable pillars of the church forgot to doze. The organist for once forgot to admire his own strong, shapely hands. The choir boys forgot their pranks and behaved like the little cherubs which nobody ever mistook them for.

After the sermon and services were over the vestrymen found themselves masters of the situation. Their cup of joy ran over when the leading banker of the town, Mr. Bullion, the dignified and reticent, told as many of them as he could get together that they had "shown wonderful prudence and foresight in securing the services of that remarkable young man."

"Katharine."

"Dwight, you spoke like one inspired."

"I was. But, oh, my dear girl, I am so ashamed. I was inspired by thoughts of you."

"Be still, Dwight. I came with the idea that I might help you. I felt that I had a message from a higher power that I could give you in a glance."

Mr. Harmon overtook them, and as he was wrung the young man's hand he exclaimed:

"Dwight, my boy, in that one sermon you have accomplished much."

"And what shall I understand by that?" asked the clergyman.

"Come into the house," said the old man. "There was a smile upon his face,

a blush on Katharine's, and a look of wonderful happiness shone from the eyes of the rector of St. Elizabeth's.—Exchange.

**Thieves Torture a Grocer.**  
Chicago, Feb. 26.—Charles Telitz, a grocer at 2411 Thirty-eighth street, was tortured by three robbers in his store last night while he was closing the place for the night. The robbers threw a rope over his neck and threatened to hang him if he did not reveal the hiding place of his money, which they said he had secreted about the premises. The rope was thrown over the stove pipe and drawn taut. Telitz, thinking the men were about to murder him, protested that he had no money except that in the cash drawer. The robbers then let the man down, and still keeping him covered with a revolver, looted the cash drawer, securing \$15, the day's receipts.

**One-Man Board Law Invalid.**  
Detroit, Mich., Feb. 26.—Judge Frazer of the Wayne Circuit bench has handed down a decision of the full bench holding the recent act of the legislature abolishing the triune board of public works in this city and providing for a one-man board to be invalid. The case will be appealed to the Supreme court.

## DOOM OF ICE MAN.

**Anhydrous Ammonia Machine Developing Into a Household Utility.**

While ice combinations are forming, and independent concerns are springing up here and there, to compete for the patronage of the household during the months when the mercury locates itself near the top of the tube, the inventors are busy trying to solve the question of refrigeration in a way that will break the hold of the ice man and make the preservation of perishable articles of food possible by a less sloppy and troublesome method than that of the present. The search for this process has been persistent ever since the anhydrous ammonia ice machine demonstrated its success and became indispensable in breweries and cold storage warehouses. The difficulty in the path of inventors was that of power. The ammonia could be used to produce cold in household ice boxes, but this would not be economical unless provision were made for the recondensation of the ammonia after it had lowered the temperature by rapid evaporation. It is now reported that an electrical inventor has succeeded in providing this necessary power, and that ice can be made in the household at much less cost than it can be furnished by the ice companies. The machine is operated by a one-horse-power motor, and it is said will produce 1,200 pounds of ice in twenty-four hours at the low cost of one dollar. If the report in regard to this invention is well founded, and it is reasonable to expect an early development of the anhydrous ammonia machine into something of household utility, the reign of the ice man will soon be over. The electric light and power companies will run wires into the refrigerators and sell power that will enable the housewife to keep a small storage closet in her kitchen. The improvement will displace the ice box with the ice man, as a small closet well packed with sawdust will serve as a refrigerator. There will be no more leaky ice chambers and no more worry because of forgetfulness on the part of ice men incident to contact with good-natured restaurateurs while saloon boxes were filled.—Milwaukee Evening Wisconsin.

**Petty Case Carried Up.**  
There is a prospect that the celebrated Iowa calf case may find a counterpart in litigation now in progress in Wisconsin. In August last some pigs belonging to Gustave Hedke of Mount Pleasant camped on the land of a neighbor named Peter M. Anderson, with whom Hedke was at outs. The farmer threatened suit for trespass, but a third party was agreed upon as referee. He assessed damages at \$2, which Hedke, however, refused to pay. Anderson went to law and secured judgment in the sum of \$2.25. This was confirmed on appeal, and now Hedke will take the matter to the supreme court.—Tex.

**Spring Valley Miners Strike.**  
Spring Valley, Ill., Feb. 26.—A strike has been inaugurated in mine No. 1 and that shaft has been idle all day. During the last month rumors have been afloat to the effect that the scales were out of order and that consequently the men were receiving short weight on every ton of coal sent up. These rumors, which it is alleged are based on the reports of the recently elected check weighman, John Evans, have had the effect of creating much dissension among the miners.

**College Boys in Riot.**  
Monmouth, Ill., Feb. 26.—President S. R. Lyons of Monmouth college filed in the county court a complaint, charging twenty-seven of his students with riot. Officers were dispatched to the college, where was found an army of excited students engaged in a spirited contest. The combatants were about equally divided between the freshman and sophomore classes. The latter had taken possession of the college cupola, from which proudly waved the flag emblem of their class. Below were massed their foes, the freshmen vainly attempting to capture the colors. In the melee the door leading to the cupola had been demolished, the stairway wrecked, and there were other evidences of a severe engagement. The boys were arrested with difficulty. They were each fined \$5 and costs, amounting to \$12 each.

## PURE BLOOD

Necessary to Life.  
Vinol Makes it.

POOR BLOOD CAUSES ERUPTIONS AND WEAKNESS.

Vinol Makes Pure, Rich, Red Blood.

BECAUSE WE KNOW THIS WE GUARANTEE ITS ACTION.

Impoverished blood is a sure sign of internal disorders. We see every day too many people whose faces plainly show that there is something radically wrong.

We want all of our fellow-citizens to know of our splendid blood purifier and blood maker.

We refer to Vinol.

Vinol, as we have before stated, is a purely scientific preparation. Vinol owes its virtue to the fact that it contains in a highly concentrated state the active curative principles, taken from the livers of live cods—the same elements that formerly were found in cod-liver oil, and which made it famous.

Vinol does not contain the grease or fat that characterized cod-liver oil and made it in many cases worthless. Vinol acts upon every one of the great vital organs, and by invigorating and giving them strength, enables them to properly perform their functions.

Vinol's effect on the stomach is marvelous. It tones up this, the greatest of the organs of the body, and enables it to obtain from the food which is taken into it the necessary elements to create flesh and muscle tissue, bone structure and pure, rich, red blood.

We are in receipt of a letter from a Salvation Army woman which reads as follows:

"I took Vinol after a bad attack of grippe, and so much good did it do me that I persuaded my sister to take it. She was all tired out. Had no appetite and her blood was very poor. It did her as much good as it did me."—BETSY HABERSHAW, 718 River St., Fall River, Mass.

Won't you please come in and see us? We are always glad to extol the merits of Vinol.

We will give you back your money if you don't find Vinol will do all we claim it will. Could any one do more for you?

#### WEAVERS WANT MORE WAGES

**Paterson Silk Workers to Make a Demand—May Strike.**

New York, Feb. 26.—Every silk manufacturer in Paterson, N. J., will be visited today by a committee from his shop asking that wages be increased. On the answer will depend whether the weavers will continue at work or go on strike. At a large meeting of silk weavers in Paterson on Saturday night it was decided that the time had come when the weavers should demand more and that the manufacturers were in a position to pay more than current prices.

The strike in the Scranton annexes and the general condition of the silk trade have led the weavers to this action. A second demand will be made and tomorrow the second answer will be made known to the weavers in the mills. Then general and sub-committees will meet and a mass meeting will be held next Friday to determine what shall be done.

The weavers have set a figure and they declare that they will not compromise or come one cent below it. The basis of the proposed new scale will be the schedule of 1894, which the manufacturers adopted.

#### BIG TRUST COMPLETE.

**United States Steel Company Gets Incorporation Papers.**

New York, Feb. 26.—With an authorized capital stock of \$3,000 J. Pierpont Morgan today launched the United States Steel company, which is the legal name of the gigantic Morgan-Carnegie combination. Articles of incorporation were filed at the office of the county clerk of Hudson county, New Jersey, by the Hudson Trust company of 51 York street, Hoboken, the New Jersey agent of the combination.

According to the articles of incorporation the objects of corporation are to "manufacture steel, iron and other materials," to "own, occupy and develop mines" and to "own means of transportation." There is a provision that the corporation shall not own a railroad in the state of New Jersey. Charles C. Cluff, William J. Curtis and Charles McVeagh are the incorporators. The \$3,000 authorized capital stock is divided into thirty shares of \$100 each, but there is a provision that the authorized capital may be increased any time.

#### Stage and Church Alliance.

Nearly 100 actors, clergymen and laymen have organized the Boston chapter of the Actors' Church Alliance. It already has 129 members, twenty of them clergymen, and its object is declared to be a common effort on the part of stage folk and church people to help one another and humanity. The alliance is meant to include in time all the artistic callings, reaching especially every part of what some persons know as bohemia.

#### BAKU WORKMEN LIKE SLAVES.

**Many Live in Houses Without Windows and Rooms Without Beds.**

St. Petersburg, Feb. 26.—The great fire at Baku has disclosed the fact that the tenements there are a chapter by themselves. Minister of Agriculture Yermoloff visited them in 1899 and officially reported that not one of them was equal to the most moderate sanitary requirements and that 30,000 men were living like slaves, many in houses without windows and in rooms without beds. The fire has also disclosed the surprising fact that there is no fire department in that city where untold millions are stored up in the shape of inflammables. It seems the naphtha interests appropriated 5,000 or 6,000 rubles for fire-extinguishing apparatus several years ago, but the matter rested there because nobody knew precisely where to locate the engine house, and the question of procuring state property for a site has never been settled. This, in spite of the fact that the workmen's tenements of dwelling barracks are, or were before the fire destroyed them, located quite near the oil reservoirs.

#### DOG DENTISTRY.

**Favorite Pups May Now Have Their Teeth Filled.**

As dogs have teeth there is no reason in the world why they shouldn't also have toothache, and if they have toothache, and their masters and mistresses can afford it, why should not the pets be taken to a dog dentist to have the offending teeth filled or drawn? In London there is a dentist who devotes himself to the dogs of his patrons. No amalgam fillings are put in by his hand—nothing in that line but gold. He says the bulldog is the best patient. You can pull his jaw off and not a whimper will be heard. On the other hand, the softest dog is the King Charles spaniel. These dogs sometimes frighten themselves into fits when the work of drawing a tooth begins. A good deal of the snapping and snarling of puppies is due to their teething. As in infants of the human race, new teeth come and try to push the old ones out, and sometimes serious complications ensue, as with babies. So the dog dentist has to take out the old teeth and give the new ones a chance. Of course, the dog dentist is likely to be bitten, and this one in London bears on his hands the marks of many a refractory dog's teeth. But these bites never cause him any worry. He dabs vinegar and salt on the wound and considers that this treatment is better than cauterizing.

#### Oldest American Waterworks.

The oldest waterworks system in the country is that of South Bethlehem, Pa. The original mains laid were made out of cedar logs, some of which have recently been taken up in a good state of preservation.
